

Client Testimonials

"I consulted Lido Tax to seek advice on UK Tax for Non-Residents/Foreigners, and was met with an engaging level of attention from Andrew Cazalet, who took time to understand my case and come back with tangible numbers and next steps for me to address my tax situation.

The price level was reasonable and I would most definitely recommend anyone seeking high quality, personalised, flexible, quick response, UK tax advice to contact Lido Tax. In perspective, I made the same request to several larger firms and did not even get a response!"

Filip Nilsson - Sweden

"I approached Andrew regarding advice on setting up a new business overseas. He is an absolute professional, obviously has a great depth of experience and understanding of his ever changing industry, explains potentially complex procedures in an easy to understand way, is always prompt in responding, is generous with his time and knowledge and has a good network of contacts overseas. A very likeable man who I would thoroughly recommend."

Linda Cruse

"Lido Tax Consulting have provided me invaluable advise on optimising my investments and tax positions. I have worked in 5 different countries in the last 12 years and have a rather complicated personal position. With Lido Tax Consulting's help I have managed to understand and process my different tax regimes in a manner wholly professionally and smoothly. I have no hesitation in recommending their services."
