

## Private Seminar

### "What's new about the Commercial Yacht Regime in France?"

*Dear Colleague & Member,*

*I am happy to invite you to a private seminar presented by myself and relating to the Commercial Yacht French Regimes.*

*Maybe you know, I am a Lawyer registered at the Bar in Paris and Malaga, Founder & Managing Director of Verges & Co. International Law Office, Associate Member of the Chamber of Shipping in London.*

*Since 1992, we have been working in International Maritime Consulting especially on behalf and for the account of yachts' owners.*

***The recent French Regimes allow the yachts' owners (or future owners) to optimize the acquisition, chartering, maintenance, repair, etc.. of their yacht especially from a tax point of view. One of them applies whatever the flag & the yacht's length.***

*The presentation will last for about 30 minutes followed by a question and answer section.*

*Please let me know if you would like to attend such an event we are hosting at Hausmann Patrimoine's offices, Independent Financial Advisor (IFA) with whom we are happy to have an association.*

*Please feel free to come with a contact/client interested in yachting operations (building, buying, chartering, selling, etc..).*

As this is a first come first served basis, I would appreciate your earliest answer.

***Dates in Mid-2009:*** *Thursday, May 28<sup>th</sup>; Tuesday, June 16<sup>th</sup>;
